IV. An explanation of how total remuneration is consistent with the Remuneration Policy, including how it contributes to the Company's long-term performance

In 2021, the Company granted and paid remuneration to the Management and Supervisory Board members exclusively on the grounds of the Remuneration Policy. The Remuneration Policy, within the scope regulated herein, has prevailed since then over other documents regulating the principles of remuneration of the beneficiaries covered by the Remuneration Policy, effective at the Company.

In 2021, the remuneration of the individuals covered by the Remuneration Policy took into account the objective criteria provided for in the Remuneration Policy and the pay and working conditions of other Company personnel in the manner provided for in the Remuneration Policy. The applied principles of remuneration of the Management and Supervisory Boards' members contributed to the implementation of the Company's strategy and the set long-term goals by providing: (i) full engagement in the performance of functions in the Company, (ii) motivating the individuals subject to the Remuneration Policy to implement the Company's strategy and its long-term objectives, (iii) permanently binding the individuals subject to the Remuneration Policy with the Company, (iv) the amount of remuneration of the individuals subject to the Remuneration Policy which is adequate to the

financial and business performance of the Group, including the Company and (v) attitudes which preclude the individuals subject to the Remuneration Policy from taking excessive risks in performing their functions.

In 2021, members of the Management Board were entitled to remuneration on the basis of contracts concluded with individual Management Board members. The contracts in question specify the amount and other terms of the fixed remuneration determined by the Supervisory Board, as well as the non-cash benefits that may be granted to a Management Board member. The amount of fixed remuneration corresponds to the type of work performed by individual Management Board members, as well as their qualifications and the quantity and quality of their work for the Company. The Company's practice of (i) establishing the components of fixed and variable remuneration, as well as bonuses and other cash and non-cash benefits and non-cash benefits that may be awarded to members of the Management Board, (ii) clear, comprehensive and differentiated financial and non-financial performance criteria for the award of variable remuneration, (iii) deferment periods for the payment of the Variable Remuneration, (iv) an option for the Company to claim reimbursement of the Variable Remuneration and (v) the award of remuneration in the form of financial instruments to the Management Board members is in accordance with the provisions of the Remuneration Policy.

In the aforementioned period, the Report granted monthly lump-sum remuneration to the Supervisory Board members exclusively on the grounds of and in the amount provided for in a resolution of the General Meeting of Shareholders. No variable remuneration applies to the Supervisory Board. Fixed remuneration is commensurate with the assigned scope of activities and functions performed, in proportion to the term of office of the certain function. The members of the Supervisory Board did not receive any remuneration (i) linked to the results of the Company or the Group, (ii) in the form of financial instruments or other non-cash benefits.

V. Information on how the performance criteria were applied

The variable remuneration of the members of the Management Board was granted to them in connection with their compliance with the criteria for obtaining variable remuneration as set forth in the Supervisory Board's Resolution No. 58/2020 of 4 September 2020 within the limits provided for in the Remuneration Policy.

Decisions regarding the allocation and payment of variable remuneration in 2021 to the Management Board members in the form of an 2020 annual bonus were preceded by individual verification of the fulfilment of the criteria with reference to individual Management Board members. The verification of the fulfilment of the criteria for obtaining variable remuneration in the form of an 2020 annual bonus was based on data from the approved Company's financial statements, Group member companies or companies supervised by the respective member, drawn up for the accounting year 2020, and laid grounds for awarding variable remuneration to the respective Management Board member. The annual bonus was awarded in connection with the achievement of a positive financial result by the Company, Group member companies or companies under the supervision of a certain Management Board member, and its amount was defined as a percentage of the financial result, as agreed in the contract with a certain Management Board member .
