

ERBUD will build the Lidl Oleśnica Distribution Centre

ERBUD S.A. signed a contract for the construction of a Lidl Distribution Centre in Dobroszyce near Oleśnica. The contract value is PLN 229 million – it is the largest contract of the Group in building construction signed this year.

The facility will be built at ul. Zakładowa 1 in Dobroszyce and will be one of the most modern facilities of this type in the chain's portfolio in Europe. The planned usable area of the new Distribution Centre is approximately 67,000 sq m. Its construction will take a year and final acceptance is planned for April 2022. It will be Lidl's twelfth distribution centre in Poland.

This is yet another project carried out by ERBUD for Lidl retail chain. In 2018/2019, the company built the Lidl Distribution Centre – with all associated infrastructure – in Stargard in the West Pomeranian Voivodeship. The contract value was almost PLN 200 million. ERBUD was also responsible for the reconstruction of Lidl Distribution Centres in Bydgoszcz and Wyszaków.

ERBUD has extensive experience in the construction of warehouses and industrial facilities. The largest contracts of the Group in this area include, among others Jaworznicki Industrial and Technological Park in Jaworzno, Bosch's production plant in Mirków and the research and development centre for Unilever in Poznań.

The ERBUD corporate group is the largest construction group in Poland that is not part of international holdings. ERBUD has over 30 years of experience on the Polish and in Western European markets. It specialises in building, road, industrial and power engineering construction. Every year it carries out projects worth over PLN 2.5 billion. Since 2007 ERBUD S.A. has been listed on the Warsaw Stock Exchange. The most prestigious recent projects executed by the companies belonging to the ERBUD Group are: Galeria Młociny in Warsaw, Hala Koszyki in Warsaw, Eurocentrum Office Complex and Royal Wilanów office buildings in Warsaw, Invasive and Non-invasive Medicine Centre of the Medical University of Gdańsk, Warsaw South Hospital, Lidl Distribution Centre in Stargard, Municipal Waste Incineration Plant in Konin, the construction of a boiler room with a WR25 boiler, along with the associated infrastructure for FORTUM BYTOM S.A. Heat and Power Plant, and Dobrcz/Mierki Photovoltaic Power Plant Complex.
