## PRESS RELEASE

### **ERBUD among the winners of the "Building of the Year 2012" competition organized by PZITB**

The project named **Research and Teaching Centre for Nanotechnology in Szczecin** completed by ERBUD SA was awarded the 2<sup>nd</sup> prize in the "Construction of the Year 2012" competition in the category of science and education buildings. This prestigious award, which promotes modern technology and high quality, is given by the Polish Association of Civil Engineers and Technicians (Polski Związek Inżynierów i Techników Budownictwa) and facilitated by the Ministry of Transport, Construction and Maritime Economy (Ministerstwo Transportu, Budownictwa i Gospodarki Morskiej) and the Central Office for Building Control (Główny Urząd Nadzoru Budowlanego). The ceremony was held in Warsaw on 25 June 25.

The XXIII edition of the competition covered 57 projects across Poland. The Research and Teaching Centre for Nanotechnology in Szczecin erected by ERBUD SA is a modern academic centre. Here are trained specialists in the field of modern medical technologies. In the building there are, among others: two-level auditorium hall with 500 seats, teaching facilities, laboratories and reading room.

The awarded project worth PLN 30 million net was completed by ERBUD SA.
