### **PBDI S. A. from the ERBUD Group will build a section of S3 road**

**The company PBDI S.A. headquartered in Toruń, a 90% subsidiary of ERBUD S.A., signed in consortium with Mosty Łódź S.A. a contract for the construction of a section of the S3 expressway from Kamienna Góra to Lubawka. The total value of the contract is PLN 715.2 million net, with the share of PBDI S.A amounting 50%.**

The contract covers a 15 km section of the S3 road from the Kamienna Góra Północ junction to the border with the Czech Republic (Dolnośląskie province). The task will be carried out by the winning consortium as a Design-and-Build project within 31 months from the date of signing the contract, excluding winter period from 15 December to 15 March.

Initially, the offer of the consortium of Mosty Łódź and PBDI was ranked sixth on the list of companies interested in the construction of this section of the S3 road, at a price higher than the lowest by PLN 107 million net. During the selection of the contractor by the Customer, there were subsequent voluntary withdrawals from participating in the tender and rejection of offers made by GDDKiA - General Directorate for National Roads and Motorways (including two rejections of Astaldi's offer, which was cheaper by over PLN 48 million net), and the tender was won by the consortium of Mosty Łódź and PBDI.

*I am very pleased that PBDI S.A. from the ERBUD Group will build the S3 road, says Dariusz Grzeszczak, President of the Management Board of ERBUD S.A. Our offer has been prepared in a prudent and balanced manner, taking into account current market conditions, and above all labour and material prices.*

*Aggregates and their availability are usually a significant problem in road contracts in Poland, but in this case, it will not be so severe due to the large number of quarries in the site area and relatively easy transport. It is also worth adding that Mosty Łódź was already a PBDI consortium member during the construction of the Southern Service Road in Legnica. The cooperation between us was exemplary. We are convinced that it will be the same for this contract, says President of the Management Board of ERBUD S.A.*

Przedsiębiorstwo Budownictwa Drogowo-Inżynieryjnego S.A. (PBDI S.A.) is a member company of the ERBUD Group, one of the top five construction groups operating on the Polish market. PBDI S.A. specialises in the construction of roads, photovoltaic power plants and wind farms. The majority of PBDI S.A.'s road contracts is carried out with its own workforce and using its own machine park.

\* \* \*

*The ERBUD Group is one of the largest construction groups in Poland. It exists since 1990. It provides services at home and abroad, and has many years of experience gained on the Polish market as well as in Western European countries. The core business is construction of buildings, road-engineering and construction for industry and power sector. The ERBUD Group competes with the international branch players in terms of quality and meeting deadlines. Yearly, it carries out projects worth about PLN 2 billion. Since 2007, ERBUD S.A. is listed on the Warsaw Stock Exchange.*

*The most prestigious projects completed recently by the member companies of the Group are: Hala Koszyki Covered Market, Eurocentrum Office Complex and Royal Wilanów in Warsaw; Invasive Medicine Centre of the Medical University of Gdańsk; Magnolia Park and "Przyłqdek Nadziei" Hospital in Wrocław.*
